should I bring?  
Photoshop: Adobe  
Photoshop Elements also  
has an integrated  
version of Photoshop,  
and it can run on the  
same computer, but it  
is designed to work

with images and not replace it. Paint.NET: Paint.NET is used to create and edit artwork for computers and mobile devices. It allows you to see the image as you modify it, and it keeps the original image file. Adobe Photoshop allows you to open and save files in different formats. These include JPEG, PNG, GIF, TIFF, PSD, and PDF. There are

---

several other image formats available, which you will learn about in the following tutorial. What can I do with Photoshop? If you are looking to edit photos, design websites, or create new images, then Photoshop Elements is a great alternative to Photoshop. It offers lower prices, and less technical configuration, and is

---

more fun to use. Adobe Photoshop can edit any type of image, but it was originally built to create high quality photos for desktop printing.

2. Open your image in Photoshop

In your computer, you will need to find a file containing an image you want to edit. You can:

- Click to open an image in Photoshop.
- Use the File > Open function to open an

---

image from another program • Use the “Open Folder” option to open a folder of images on your computer. • Open a file online • If the file is not a file in the computer, you will need to download it. Once you have the image open, you will need to start your new project:

1. Make your project

Before you start your project, you will need to prepare a starting

---

point. You will use a base layer, merge layers together, use your selection tools and toolbox to create and edit your image.

## 1.1 Organise your files

Your image will be easier to work with if you have one file you are editing and not several different versions. So, the first thing you should do is create a new file. The best way to do this is

---

to create a new document. To do this, click File > New, then select the a681f4349e

Badlands and the Crazy Horse Memorial is better than other states because it has strong family values, low costs, a good regulatory environment and easy access to international markets. The Economist, in its biannual rankings of the 50 states, put South Dakota as the best state for business. It said it was a good state for

---

"making a go of life outside the big cities – but then, you need to have a go of it. You'll be in the middle of nowhere. For better and worse, a place like South Dakota is the most likely in the USA to make you scratch your head and think: 'What the hell have I let myself in for?'"

The magazine noted South Dakota had a low cost of doing business

---

and a well-educated workforce. It said the state's education system was one of the best in the country for preparing workers for jobs. The rankings were based on 2013 data from the Brookings Institution's Metropolitan Policy Program's state-based Economic Competitiveness Index. The report said Washington, DC, was the

---

worst-performing state in terms of how much it costs to start, run and expand businesses. The runner-up state was North Carolina, with California rounding out the top three. South Dakota had a very high share of families with children, an unusually large share of black residents and was the best state for its low poverty rate, according to the report. Los
