The Batmobile (also called the Police Car or 'LAPD Car') is a high-tech police car that is available in both the Grand Theft Auto and Vice City games. The design is based on the Batmobile from the 1960s television series Batman. The Batmobile does not appear in Vice City Stories. The vehicle is usually equipped with a variety of high-tech gadgets, which are called 'tactics'. Its weapons include a fully automatic turret machine gun in the rear and two laser beams that are controlled by the left and right side wheels, which were inspired by the toys such as Gaspin Force. The Batmobile can hold up to 8 people. The Batmobile has been used by the players of Grand Theft Auto: Vice City and Vice City Stories to chase down Lucci's thugs and the player itself. The Batmobile also appears at the end of the missions "Retribution and "Sonic Attack" of Vice City Stories, in which was stolen by CJ Jones in the latter mission. Ok, so now youve done your homework, thats all very well and good. But before you embark on your quest youll need a starting hand. Lets start with some basic strategy. In your hand, youll find cards representing 5 different suits: Reveal Holes (series of connected circles): The first, best, and only way to score a win is by aligning your cards within the holes (which is the highest scoring pattern), so do your best to align three or more holes in a row. Hole (pits): Suit & card value (in order from highest to lowest): Each hole has a different value: score a perfect 5. Youll need to be placing your hole cards in the right order for a high score. Circles (spokes): A perfect 5 is possible, but only if you have a hole cards in exactly the right suit (spoke) on the right circle (spoke). Now, we're going to dive into the game on a much deeper level to help you get a deeper understanding of the game. Starting Hand Comparison: One of the options that youll be presented at the beginning of the game are the following three cards: Flat of cards: Flat of cards 1 - 8 Flat of cards 9 - 16 Flat of cards 17 - 32 You can choose the best three cards, the two best cards, or the worst three cards. If you choose the best three cards, you could have a hand such as: You can also choose the worst three cards in order to have a hand such as: Optimal Strategy for Three of a Kind: Flat of cards: Flat of cards 1 - 8 Flat of cards 9 - 16 Flat of cards 17 - 32 The way you would achieve a score of 6 by playing a hand with three of a kind would be to sequence your hand with the following combinations: Score: 6 Sequencing Explanation: 4,5,4 would score a 5 4,3,4 would score a 6 4,4,5 would score a 6 4,5,5 would score a 6 4,4,6 would score a 6 4,5,6 would score a 6 etc. These are basic

What's new:

***A special thanks is in order to TheSkarrz, whose song "Escape" features on this track. Without him this theme wouldn't exist and I would never have been able to keep myself in Subnautica. !HELP! Help me please! Tracklisting Thanks for listening, and a very special thanks to DG-Destructoid's DirtyMind for his contribution to this album. His song is featured as the main opening theme and can be found here: To celebrate the launch of subnautica.com, I've decided to compile this soundtrack for your iPod. There's no real order to the album, just link to what you like. To get the largest number of songs I only included those for commercial-free tracks. Enjoy! I think this is an awesome idea a lot of people will see. A range of songs to take on the long journey but don't worry all the tracks are spoiler free. Some thoughts! There are a few songs that I LOVE that are available on this list however i think it would be a shame to listen to them due to spoilers in the main game. its important for new players to only listen to MOST important spoilers on here, like stealth locations, structure elements, gameplay features, the various animal noises, conversations, and how the area generally sounds. In general i just didn't worry about character names or story since everyone loves Subnautica. If you want to listen to the music you know what you are doing. Your giving the us opportunity to listen the sandbox music which is the best, thanks for that. Tracklisting: Greetings Infernal Machine Invisible Creature Dawnwalker The Splendid Playfulness of the Ambion The Safe Place The Barge The Survivor Melody The Creatures of the Interior The Stonehole The Sea Village The Unrailed! Not 100 percent complete, but the closest I could get. I know I have more than 100 songs but those are all duplicates or considered one of the "hook" songs. I'm not sure if this is awesome or what so if you have something then give it a thumbs up or thumbs down but otherwise I'll just assume I'll just assume this is awesome. Edit: Hi. I'm not only a user but also a songwriter here**
