1. Any chance I can legally download any of these? Two of my friends signed me up for freerice but I can only see my own little box for it. I understand that the downloads won't be complete films, but I also understand that I might be able to see what the film is like. Can I legally download it? Thanks!

This is a fabulous haul of screenplays thanks so much! I especially appreciate being able to download them so I can read them even when not connected to the internet. If you can give us some of the iconic Rom-Coms I would really appreciate that. Notting Hill, Four Weddings and a Funeral, Youve Got Mail, Sleepless in Seattle. And some of the British films would also be appreciated Pride, The Full Monty, Calendar Girls, Trainspotting, A Fish Called Wanda, Love Actually. The Wachowskis pitched the script to Warner Bros. who were initially skeptical of its philosophical musings and tricky SFX for the time. They then decided to bring on board underground comic book artists Steve Skroce and Geof Darrow to storyboard the entire film, shot-by-shot. Warners were impressed and the rest, as they say, is history. Chow took a five year break after CJ7, but when he came back as a writer/director on 2013's Journey To The West: Conquering The Demons, it was obvious that even though the faces may have gotten a lot younger, the style was 100% Stephen Chow. That film's absurdist slapstick take on the classic Chinese novel after which it is named was one of Hong Kong's greatest comedies in years, well, at least since Chow's Kung Fu Hustle threatened to make him a worldwide star. Perhaps Chow's vanity prevents him from getting back in front of the camera as he turns grey, but his fingerprints are all over that film, and no less so in his latest assault on good sense and sanity, The Mermaid.

Finally, some great cinema, so much that is groundbreaking, from the ground up. The Mermaid is one of the first mainstream Hollywood films that speaks to the complexity of the human experience. Step in Steve Chow, mezzanine to the chateau. It is a film that deserves a second lease on life, even if the VOD market has turned against it. I salute it as a classic and it only looks better with time. Let us enjoy this treat of the fat years with the latest and best in streaming film and television Stephen Chow, 60 Million Dollar Man Directed by Steve Talmadge Starring: Jessica Hsuan, Tracy Huang, Gordon Liu, Jimmy Wang Yu, Vincent Zhou, Donnie Yen. When I was young, I had just discovered Lai Sheung-yee, Wong Kar-wai, and Ann Hui, and even though I never made it to the Mainland, I already considered myself a total Connoisseur. Later, I would discover Stephen Chow, who would break out from Hong Kong cinema and become internationally renowned. Stephen Chow has a huge following in China, amongst the younger generation, because he is a very fun, very

passionate filmmaker. He keeps his audience hooked with action, comedy, dancing and singing. His films are a total delight and a true experience! The Mermaid, directed by Steve Chow, is funny, imaginative, full of action and what is more, it is the first mainstream Hollywood film that deals with the complex subject of human intimacy with a sense of humor. The villain of the story is a very smart caterer, who tries to get the fortune of the fat man he loves, using everything to exploit him, but in the end, he fails, and the two will be forced to live with each other. It's a wonderful film, one of my favorites of Stephen Chow, which I have been wanting to see for a long time. 5ec8ef588b
